(b) LH-706 dtd 8 July 1959

Gentlemen:

25X1A

The Survey Report, dated 24 August 1959, as prepared by your [REDACTED] regarding two (2) lost DeJur Stenorettes w/mikes, has been reviewed.

Under the terms of the contract, you are responsible for control of Government property. Your survey report does not give an explanation by the parties charged with accountability for the recorders as to the reason or circumstances attendant with the loss.

In view of your responsibility and lack of reason for the loss, it is felt that the Government should be reimbursed for the missing items. Since the units were procured in May 1956 and were lost in the fall of 1956, it is felt that reimbursement should be made at the purchase price or a total of \$339.00. Your check in payment for this Government property should be made payable to the Treasurer of the United States and transmitted in the usual manner to this office.

Very truly yours,

25X1A
